

Your career starts here

Securing your first job after graduation can be daunting. Not only are you competing with your peers for available jobs in your local market, just getting an interview can be challenging when employers require demonstration of previous work experience.

Start your career with the right partner:

Navitas Professional

Touted as the study and employment destination despite its small population size, Australia is not just known for being the 'lucky country', but the third most popular international student destination in the world[†].

Although a high job-opportunity market, Australian companies still receive an average 200 CVs for every advertised vacancy[^]. Have your CV stay on top of the pile with Navitas Professional Careers & Internships' work-readiness programs.

"The internship provided me with a great opportunity to know how accounting works in reality.

If you are someone who wants more than just migration points, Navitas is definitely the best option for you".

Charles, Accounting Internship Eurofins

Professional Year (Accounting, ICT, Engineering)

Navitas Professional Year Program is an initiative from the Australian Government Department of Immigration and Border Protection (DIBP) to address the skills shortage in Australia, providing graduates the skills to improve their employability and understanding of the work environment.

Our 44 week program combines formal learning with practical soft skills, incorporating a 12 week internship within your field of study. Successful completion provides eligibility for migration points towards permanent residency.

Navitas Professional is the only provider in Australia to offer the Professional Year Program in Engineering, ICT and Accounting in six Australian states and the Northern Territory.

Navitas Professional Year is accredited by:

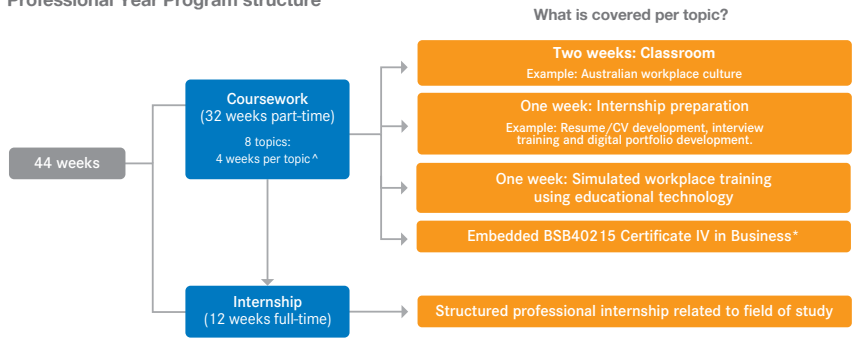

CHARTERED ACCOUNTANTS AUSTRALIA + NEW ZEALAND

RELEVANT / FLEXIBLE / TRUSTED

Professional Year Program structure

 **8 out of**
top 100 universities
are in Australia[†]

Use latest technology platforms to develop your employability skill and build a digital portfolio of work-simulated projects

[^]Subject to availability

"Sue was extremely nervous when we first met her. Though in the three months she interned with us, her workplace preparation far exceeded all my expectations. A month after Sue completed her internship, a vacancy became available; we offered her the role straight away."

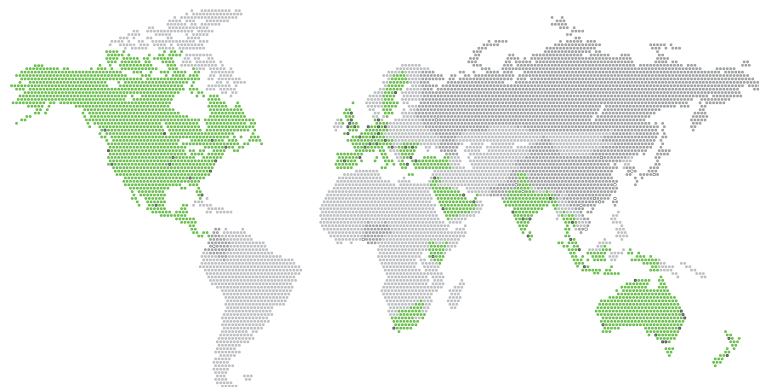

***Julian Porter, Mantra Group**
